

Worldwide ERC® Applauds Introduction of Bipartisan Dignity Act of 2023

Comprehensive Reform Bill Would Modernize the U.S. Employment-Based Immigration System

WASHINGTON, DC, 30 May 2023 – Worldwide ERC President and CEO Lynn Shotwell issued the following statement today in support of the bipartisan Dignity Act of 2023, a comprehensive immigration reform bill that would modernize the visa and green card system talent mobility professionals utilize to build a competitive, world-class U.S. workforce:

“For U.S. employers, modernizing the employment-based immigration system to address the adjudication and visa access challenges that routinely impact their talent management strategies remains a critical priority.

“The Dignity Act is an important bipartisan step toward addressing many of these challenges.

“Worldwide ERC and our members are ready to work with the bill’s sponsors – Representatives Salazar, Escobar, González-Colón, Scholten, Chavez-DeRemer, Manning and Lawler – and other stakeholders to enact solutions that support work from anywhere, are agile and are attentive to employers and workers in order to advance talent mobility strategies.”

About Worldwide ERC®

Worldwide ERC® represents the people and businesses that are catalyzing the transformation of the workplace.
