

An exciting feature offered to our Premium Subscribers is the opportunity to earn digital badges each time you successfully complete a Learning Path.

What is a digital badge?	Digital badges are web-enabled versions of a credential, certification, achievement or learning outcome which can be verified in real time online.
Why is Worldwide ERC® using digital badges?	Digital badges are a new way to showcase your accomplishment that leverages the convenience and visibility of digital and social media while providing an additional layer of authentication.
How will my achievements get displayed as a digital badge?	We have partnered with Credly (see “Who is Credly?” below) to translate the professional development achievements you have demonstrated into a digital badge. Credly will issue and manage your badge(s) through Credly’s Platform. This enables you to manage, share and verify your designations and achievements digitally. The technology is based on the Open Badge Standards maintained by the Global Learning Consortium.
What are the benefits of having badge(s)?	Representing your skills and achievements as a badge gives you a way to share your abilities online in a way that is simple, convenient, trusted and can be easily verified in real time. Badges provide employers and peers concrete evidence of what you had to do to earn your credential and what you are capable of.
Who is Credly?	Credly is an end-to-end solution for issuing and managing digital credentials. Worldwide ERC® works with Credly to provide digital global mobility badges to professionals worldwide via Credly’s badging platform.
How will I know if I have earned a badge?	You will receive an email notification from the Credly Platform (admin@credly.com) with instructions for claiming your badge and setting up your account.
Is there an additional fee to use these digital badges?	No. Digital badges are included in the cost of your Premium subscription. We have added the badging system as a way for candidates working through the Learning Paths to manage and communicate their achievements using Credly’s credential verification method.
Where and how can I share my badge(s)?	You can share your badge directly from the Credly Platform to LinkedIn®, Twitter® and Facebook®; over email; embedded in a website and in your email signature. You can also print a certificate of your badge on paper for your records or display.
