

How Public Policies Can Support Economic Recovery

BOUNCING BACK

Industries are getting back up to speed.

Safety must come first.

The competition for global talent is strong.

TALENT DEPLOYMENT IS KEY

Employers should be able to **recruit, transfer and relocate** talent between U.S. states and across borders.

Policymakers can drive economic recovery with an *anywhere-agile-attentive* public policy framework.

ANYWHERE

- Reinstating the moving tax expense deduction and exclusion
- Allowing for remote notarizations with the SECURE Notarization Act

AGILE

- Creating a Trusted Employer system for better visa and green card processing
- Modernizing the employment-based immigration system

ATTENTIVE

- Simplifying state income taxes for employers and workers
- Safeguarding workers' data privacy in cross-border moves
